

# DON'T VOID YOUR WARRANTY BY MISSING SCHEDULED MAINTENANCE MILESTONES!

## Advanced Emission Offers The Maintenance & Replacement Parts You Need.

At Advanced Emission Control Solutions, it's important that we keep America's trucks and fleets rolling without interruption. Some manufacturers put mileage limits on specific scheduled maintenance.

- Valve Adjustments are recommended every 40,000 miles
- EGR Cooler Cleaning is recommended every 80,000 miles
- DPF Cleaning is recommended at 150,000 mile intervals

In fact, it's possible to invalidate your warranty if you don't perform maintenance at the recommended mileage thresholds.

We offer a wide range of maintenance services for fleets and independent owner operators.

**Call Stephen Davis at (559) 240-6076 to schedule your Valve Adjustment, EGR Cooler Cleaning, or DPF Cleaning today!**

## VALVE CLEARANCE ADJUSTMENT

Valve adjustments are recommended by some manufacturers every 40,000 miles. Valve clearance specifications and adjustment procedures vary by manufacturers. Our technicians carefully adjust the clearance per OEM guidelines.

## EGR COOLER CLEANING

EGR Cooler cleaning is recommended by some manufacturers every 80,000 miles. This cleaning is necessary to maintain the EGR's function of cooling down the exhaust that's recirculating in the engine's cylinders.

## DPF CLEANING

We thoroughly clean your DPF using the only OEM-approved, advanced FSX DPF cleaning process that uses the only industry-approved test bench to accurately certify the success of cleaning.

## MOBILE SERVICES

We've designed our exclusive mobile DPF cleaning service for your convenience. We'll meet you wherever you're parked, remove your filter, clean it, and install it. Avoid downtime, avoid DPF replacement, and avoid the poor last-resort decision of throwing your money away on reman DPFs
